THE DAY

The day was a year at first
When children ran in the garden;
The day shrank down to a month
When the boys played ball.

The day was a week thereafter
When young men walked in the garden;
The day was itself a day
When love grew tall.

The day shrank down to an hour
When old men limped in the garden;
The day will last forever
When it is nothing at all.

COLEMAN HASELTINE

It costs so much to be a full human being that there are very few who have the enlightenment or the courage to pay the price. One has to abandon altogether the search for security, and reach out to the risk of living with both arms. One has to embrace the world like a lover. One has to accept pain as a condition of existence. One has to court doubt and darkness as the cost of knowing. One needs a will stubborn in conflict, but apt always to total acceptance of every consequence of living and dying.

For yesterday is but a dream, but
today well lived makes yesterday a
dream of happiness and every to-
morrow a vision of hope!

There are places I remember

All my life, though some have changed

Some forever not for better

Some have gone and some remain

All these places had their moments

With lovers and friends I can recall

Some are dead and some are living

In my life I've loved them all.
